SPANISH S.W.A.G.

ON DEMAND LEARNING

Learning Program Overview

The Spanish S.W.A.G. Jr. Program is tailored for students in grades K-3 that empowers educators to facilitate an interactive language learning experience in an age-appropriate, culturally-responsive way. Each lesson includes whole-group learning videos and interactive activities, such as games, speaking and writing tasks, American Sign Language (ASL), and entertaining educational elements throughout, including hip hop-oriented movement breaks to keep young learners engaged. This program not only teaches the Spanish language but also reinforces literacy and logical reasoning skills in English, making it a valuable tool for young students' overall development.
